Description

It is allowed to input additional special symbols, more than 1 "+", white spaces and letters before and after phone number, which you input without white spaces in the Phone field.

Steps to reproduce:
1. Open the main page
2. Click Phone button in the right bottom corner.
3. Input correct phone number without white spaces (example 0671234567) and add any special symbols, letters or white spaces in any quantity before or after this correct phone number.
4. Click Ring back button.

Expected result: Phone field shows an error message "Incorrect phone number"
Actual result: 30 seconds countdown is started with a text messge "Ring order is received. We are already calling to you"
